

To: Honorable Mayor Chuck Reed  
Council Person Sam Liccardo

Dear Sirs:

I would like to express to you my support of keeping Grace Community Center, located in San Jose, open to the public for the care of our challenged and disabled community members.

Grace Community Center takes care of patients suffering from psychiatric illnesses and other disabling conditions, by providing them with hot meals, art and wellness classes, emotional support, and other creative projects. Grace Community Center is a safe place for mentally challenged individuals to go and be productive, and feel like they are contributing and being part of our San Jose community. Grace helps these individuals by giving them dignity, and lets them know they are worthwhile and needed citizens.

We need Grace Community Center to be part of San Jose's solution for the individuals who seem to fall through the cracks, so they get the attention and help they need, require, and deserve.

Please keep Grace Community Center open so it can continue to help the people of San Jose.
